Museum researcher wins NSF grant to study rare Hawaiian moths

February 20th, 2014

Photos available

GAINESVILLE, Fla. — A Florida Museum of Natural History researcher has received \$150,000 from the National Science Foundation to study endangered moth species in Hawaii that haven't been seen for nearly 100 years and were believed to be extinct.

Assistant curator of Lepidoptera Akito Kawahara and his team will travel to Hawaii in July to collect samples of rare leaf-mining moths from the genus *Philodoria*, which have not been documented since the early 1900s. Researchers believed the moths to be extinct because of their small size and distinctive

The *Philodoria marginestrigata* moth, pictured with a dime for reference, feeds during its larval stage within the leaf tissue of 12 families of native Hawaiian plants.

After 30 years, a final sale at Hyde & Zeke Records

By Lauren Flannery
Correspondent

Published: Friday, August 2, 2013 at 2:31 p.m.
Last Modified: Friday, August 2, 2013 at 2:31 p.m.

People arrived at Hyde & Zeke Records recently, just as they had for decades. But this time it was different.

This time it was to pay their respects.

They left flowers at the doorstep.

They taped notes to the front door thanking store owner Charles Scales for things both big and small: fixing a guitar, letting people listen to music on the store's faded couch, giving advice.

One note simply read, "Thank you for so many good things."

Facts

If you go:
What: Saluting Scales, the Civic Media Center's tribute to Charlie Scales featuring such area musicians as The Bill Perry Orchestra, Jim McKay from The Root Doctors, Rob Dark from Big Oil and Chuck Martin from DIVIDED in a musical salute to the Gainesville guitarist, who died July 2 from a heart attack at age 59.
When: 8 to midnight Saturday, Aug. 3
Where: Civic Media Center, 433 S. Main St.

Fest picks: Bands worth their weight in PBR

All: Composed of three of the four members of the hugely influential punk band Descendents, All will be playing a show at the Florida Theater at 11:20 p.m. Sunday. The Woolly will be screening the documentary "Filmage: The Story of Descendents/All" Friday, Saturday and Sunday. Check out the song "Think the World" to get a feel for their music.

Andrew Jackson Jihad: This band reminds me of the summer between my senior year of high school and freshman year of college when I would drive for miles on the back roads with my hair caught in the

Fest, an annual punk music festival, has gotten so big that this year it officially started with a Pre-Fest in Ybor City on Tuesday.

The festival has about 400 bands on its lineup — nearly 100 more than last year. Starting on Halloween, Fest 12 will be the longest running yet, with more than 2,500 people expected to attend.

"I think if you live in this town, even if you aren't into the music, you know Fest is here," said event organizer Tony Weinbender.

Lauren Flannery, Alligator Contributing Writer | 0 comments

Two UF professors are joining Robert De Niro, Bruce Springsteen and John Glenn in the American Academy of Arts and Sciences.

Ecology professor Robert Holt and anthropology professor Michael Moseley will be inducted into the Academy on Oct. 12. They're the 11th and 12th members of UF's faculty elected to the Academy since the 1970s.

The Academy serves as an independent research center that elects members to exchange and promote ideas, according to its website.

"It's like an adult version of an honor society," Holt said.

He said his acceptance to the Academy came as a surprise because he wasn't even aware of his nomination.

UF spokesman Steve Orlando wrote in an email that the university is proud of the professors.

"UF is extremely fortunate to have such gifted scholars, and this national recognition reflects well on the entire university," he said.

Lauren Flannery, Avenue Writer | 0 comments

After 24 hours and countless cups of coffee, the film teams arrived at the Phillips Center for the Performing Arts to see their movies go from the computer screen to the big screen.

Exhausted but proud, seven teams showed their work to a welcoming audience at the UF Performing Arts 24-hour film competition held over the weekend. The film teams — which ranged from first timers to competition veterans — were given a packet containing the competition's theme and were allowed 24 hours to storyboard, shoot and edit a 5-minute film. All of the films were then shown Sunday at an event free to the public.

The theme was "The End of the World as We Know It," and interpretations ranged from crippling self-realizations to meteors that destroyed the earth. The film had to include an iconic part of campus, and teams were awarded extra credit points if they could work certain items like a Crock-Pot or a choreographed dance routine into their story.
